*To Everything there is a Season,
a Time for Every Purpose
Under Heaven.*

Ecclesiastes 3:1

Assisted Living "In Your Home Or Ours"

Seasons' Mission

Providing compassionate, personalized care services to help individuals remain independent and safe in their homes for as long as practical and possible

Life's transitions can be challenging. A little help with the activities of daily living may be all that is required to maintain independence in the comfort of home.

Whether you or a loved one have begun to experience the challenges associated with aging, need assistance getting back on your feet following illness or surgery, or could just use a helping hand to remain safe and comfortable in your own home, *Seasons HomeCare®* can help 24-hours a day or just a few hours a week.

Seasons' Caregivers

We strive to attract and retain only uniquely gifted individuals to staff our caregiving team - those who possess a high degree of integrity, dependability, compassion and competence, as well as a genuine desire to serve others.

All Seasons' Caregivers are:

- Insured and bonded
- Criminal background checked
- Reference checked
- Professionally trained

Avoid Caregiver Burnout

People caring for a family member often experience fatigue, stress, anxiety and depression. If you recognize these symptoms, don't hesitate to ask for help. *You must take good care of yourself to take good care of a loved one.*

Seasons' Care Solutions

Seasons has identified and developed a set of creative, cost effective *Care Solutions* that are tailored to meet the specific needs of individual families as they struggle to keep their loved ones in their own homes.

In-Home Care

By tailoring *In-Home Care Solutions* to meet one's unique and personal challenges, an individual may be able to remain safe and independent in their own home with fewer changes to the everyday activities they have grown to enjoy.

CareHome (Residents & Guests)

Seasons CareHome is an alternative to traditional assisted living facilities, providing clients with the social and emotional support of a family without forfeiting privacy or quality of care. The CareHome features a unique environment that combines optimized independence with a high level of personalized care.

In the CareHome, *Residents* and *Guests* enjoy a wide variety of activities in a social, yet structured, environment. We promote self-worth while reducing the risk of isolation-related ailments such as anxiety, aggression and depression.
